## PROFILE

I am dynamic and detail oriented a front-end web developer. I strive for excellence to create a meaningful user interface that is accessible and responsive to all screen sizes and by assistive technology. I use my creativity, along with attention to details, and high enthusiasm for collaboration and teamwork while coding the web pages. I have a deep curiosity for learning more about web development and I am currently enrolled in one of the Udemy course to learn and implement more using React development.
